

WATER

**Inspection of chemical,
bacteriological and radiation
safety according to
International standards**

by Dr. G.S. FOMIN

Fourth edition

MOSCOW

2010

CONTENTS

FOREWORD.....	9.
Chapter 1. CONDITIONING, PROTECTION AND USE OF WATER	
SOURCE.....	11.
1.1. Water supply source and water body condition.....	13.
1.2. International and national legislation on water environment protection.....	17.
1.3. Public inspection of drinking water quality.....	20.
1.4. Market of drinking water.....	21.
Chapter 2. INTERNATIONAL STANDARDIZATION OF WATER QUALITY.....	24.
2.1. International organizations.....	26.
2.2. Regional organizations.....	32.
2.3. National organizations.....	36
Chapter 3. REGULATION OF WATER QUALITY.....	40
3.1. WHO drinking water quality specification.....	41
3.2. USA drinking water quality specification.....	51
3.3. EU drinking water quality specification.....	64
3.4. Bottled drinking water quality specification.....	69
3.5. Natural mineral water quality specification.....	77
3.6. Drinking water quality specification for particular conditions.....	79
3.7. Water quality specification for places of bathing.....	81
3.8. Quality specification for sewage for irrigation.....	83
3.9. Quality specification for water for analytical use.....	85
3.10. Quality specification for water for medical use.....	85
3.11. Quality specification for special type of drinking water.....	86
3.12. Specification for storage of drinking water.....	88
Chapter 4. MANAGEMENT SYSTEMS.....	90
4.1. Quality management.....	91
4.2. Ecological management.....	97.
4.3. Safety production management.....	99
4.4. Social responsibility.....	100
4.5. Industrial safety.....	101
4.6. Terms and definitions.....	103
Chapter 5. SAMPLING METHODS AND TREATMENT OF SAMPLES.....	115
5.1. Guide for sampling.....	116
5.2. Guide for treatment of water samples.....	118

5.3. Guide for treatment of sludge and sediment samples.....	124
5.4. Guide for treatment of biological samples.....	128
Chapter 6. INSPECTION OF ORGANOLEPTIC INDEXES AND PHYSICAL-CHEMICAL CHARACTERISTICS.....	132
6.1. Determination of colour.....	133
6.2. Determination of odour and taste.....	137
6.3. Determination of turbidity.....	148
6.4. Determination of electrical conductivity.....	154
6.5. Determination of pH.....	158
6.6. Determination of calcium and magnesium summery concentration.....	160
6.7. Determination of permanganate index.....	167
6.8. Determination of the chemical oxygen demand.....	171
6.9. Determination of biochemical oxygen demand.....	181
6.10. Determination of alkalinity.....	191
6.11. Determination of suspended solids.....	198
Chapter 7. INSPECTION OF DISSOLVED GASES CONTENT.....	202
7.1. Determination of dissolved oxygen.....	203
7.2. Determination of free and total chlorine.....	212
Chapter 8. INSPECTION OF INORGANIC COMPOUNDS CONTENT.....	224
8.1. Determination of nitrogen.....	226
8.2. Determination of ammonium.....	240
8.3. Determination of aluminium.....	262
8.4. Determination of borate.....	272
8.5. Determination of iron.....	274
8.6. Determination of cadmium.....	279
8.7. Determination of cadmium, cobalt, nickel, copper, lead and zinc.....	284
8.8. Determination of potassium and sodium.....	294
8.9. Determination of bromate.....	301
8.10. Determination of silicates.....	307
8.11. Determination of calcium.....	311
8.12. Determination of manganese.....	314
8.13. Determination of arsenic.....	319
8.14. Determination of inorganic anions and cations.....	322
8.15. Determination of nitrates.....	353
8.16. Determination of nitrites.....	363
8.17. Determination of nitrates and nitrites.....	366

8.18. Determination of mercury.....	370
8.19. Determination of selenium.....	391
8.20. Determination of sulphates.....	394
8.21. Determination of sulphides.....	396
8.22. Determination of phosphorus and phosphates.....	402
8.23. Determination of fluorides.....	417
8.24. Determination of chlorides.....	422
8.25. Determination of chromium.....	429
8.26. Determination of cyanides.....	442
8.27. Determination of elements.....	459
Chapter 9. INSPECTION OF ORGANIC COMPONENTS	
CONTENT.....	472
9.1. Determination of general organic carbon and dissolved organic carbon.....	473
9.2. Determination of hydrocarbon oils.....	478
9.3. Determination of surfactants.....	486
9.4. Determination of absorbable halogen organic compounds.....	497
9.5. Determination of volatile halogenated hydrocarbons.....	504
9.6. Determination of benzene.....	508
9.7. Determination of phenols.....	523
9.8. Determination of organochlorine compounds.....	547
9.9. Determination of nitrogen and organic phosphorus compounds.....	550
9.10. Determination of organic plant protection agents.....	557
9.11. Determination of phenoxyalkanoic herbicides.....	566
9.12. Determination of aromatic hydrocarbons.....	573
9.13. Determination of organic and organometallic compounds.....	588
Chapter 10. BACTERIOLOGICAL INSPECTION.....	595
10.1. Determination of viable micro-organisms.....	596
10.2. Determination of fecal contaminants.....	598
10.3. Determination of Salmomella.....	616
10.4. Determination of Legionella.....	623
10.5. Determination of Pseudomonas.....	638
10.6. Determination of bacteriophages.....	644
10.7. Determination of Campylobacter.....	661
10.8. Determination of Cryptosporidium and Giardia.....	665
Chapter 11. WATER BIOTESTING.....	670
11.1. Biotesting relative to fish.....	671
11.2. Biotesting relative to crustacea.....	690

11.3. Biotesting relative to algae.....	709
11.4. Biotesting relative to bacteria.....	718
Chapter 12. WATER TOXICITY INSPECTION.....	727
12.1. Water toxicity control by activated sludge oxygen demand.....	729
12.2. Water toxicity control by activated sludge microorganisms growth.....	738
12.3. Determination toxicity of microcystins.....	745
12.4. Immunological testing and determination of genotoxicity of water.....	752
Chapter 13. INSPECTION OF BIODEGRADABILITY OF ORGANIC COMPOUNDS.....	763
13.1. Evaluation of biodegradability of organic compounds. in fresh water.....	765
13.2. Evaluation of biodegradability of organic compounds in salt water.....	776
Chapter 14. RADIATION INSPECTION.....	777
14.1. Determination of gross alpha activity.....	778
14.2. Determination of gross beta activity.....	781
14.3. Determination of tritium activity.....	783
14.4. Determination of strontium activity.....	787
14.5. Determination of radionuclides by gamma-spectrometry.....	792
14.6. Determination of low-level iodine.....	795
Chapter 15. INSPECTION OF WATER AND WASTE-WATER TREATMENT.....	801
15.1. Specifications for analysing equipment for water.....	803
15.2. Analysis methods of wastewater for use in agriculture.....	804
Chapter 16. NATURAL WATER BODIES CONDITION. CONTROL.....	819
16.1. Biological classification of rivers.....	821
16.2. Determination of chlorophyll.....	822
16.3. Determination of sulphur dioxide sedimentation.....	825.
Chapter 17. SAFETY INSPECTION OF MATERIALS IN CONTACT WITH DRINKING WATER.....	827
17.1. Test methods of metallic materials safety.....	828
17.2. Test methods of non-metallic materials safety.....	830
17.3. Test methods of water-conditioning chemicals and materials safety.....	837
Chapter 18. CONTROL OF EFFECTIVENESS AND SAFETY OF WASTE WATER TREATMENT FACILITIES.....	840
18.1. Requirements to treatment efficiency – health effect.....	841

18.2. Requirements to treatment efficiency – aesthetic effects.....	845
Annex 1. LIST OF INTERNATIONAL STANDARDS ON WATER QUALITY INSPECTION.....	848
Annex 2. LIST OF RUSSIAN STANDARDS ON WATER QUALITY INSPECTION.....	872
Annex 3. LIST OF AMERICANS STANDARDS ON WATER QUALITY INSPECTION.....	880
Annex 4. METHODS OF SAMPLING.....	900
P 4.1. Guidance for the design of sampling program.....	900
P 4.2. Requirements to devices for sampling.....	909
P 4.3. Methods of sample preservation and storage.....	915
P 4.4. Guidance for sampling of drinking water.....	940
P 4.5. Guidance for sampling from rivers and water streams.....	943
P 4.6. Guidance for sampling from lakes, natural and man-made.....	944
P 4.7. Guidance for sampling of wet deposition.....	947
P 4.8. Guidance for sampling of groundwater.....	948
P 4.9. Guidance for sampling from marine water.....	951
P 4.10. Guidance for sampling of waste waters.....	953
P 4.11. Guidance for sampling of water and steam in boiler plants.....	955
P 4.12. Guidance for sampling of bottom and suspended sediments.....	956
P 4.13. Guidance for sampling of biological samples.....	957
P 4.14. Guidance for sampling of microbiological samples.....	964
Annex 5. CONCORDANCE OF STANDARDS.....	968
LITERATURE.....	974
SUMMARY.....	982
CONTENTS.....	983
CONCLUSION.....	988
INFORMATION.....	1004
